kulturno
ljeto

Dragi gosti,
dobro nam došli u Kaštela, grad ljubavi,
domovinu crljenka kaštelanskog, sjedište
brojnih kula i dvoraca koji su na filmskom platnu obišli
cijeli svijet, grad u kojemu i danas raste 1500 godina
Stara maslina, turistički biser sa 17 km dugom obalom i
jedinstvenim zaljevom kakvog nema na Mediteranu.

Dobro nam došli u grad sporta – grad najboljih
hrvatskih odbojkaša!

Zadovoljstvo mi je što vam u ime Grada Kaštela mogu
poručiti da ćemo naše kulturno bogatstvo nastojat
prikazati kroz brojne kulturne i zabavne manifestacije
tijekom cijelog ljeta, ali i duže.

Kristalno čisto more, prostrane plaže uz obližnje kule i
dvorce, prirodna su ljetna pozornica za predstavljanje
prave bogate kulturne riznice koja se smjestila ovdje, u
srcu Dalmacije između dva UNESCO-va grada.

Želim vam nezaboravan, bezbrižan, siguran i ugodan
odmor u našem predivnom gradu.

Gradonačelnik Grada Kaštela
Denis Ivanović

KAŠTELANSKO KULTURNO LJETO

*Kaštelsko kulturno ljeto najveća je kulturna
manifestacija u Kaštelima, na čijem se programu
nalaze brojna glazbena, kazališna, plesna,
izložbena i slična događanja. Grad Kaštela u
suradnji s Turističkom zajednicom, brojnim
udrugama građana, kulturnim organizacijama i
ustanovama te pojedincima organizira
programe kulture na gotovo svim trgovima,
rivama, ulicama i dvorcima. I tako već dugi niz
godina, program Kaštelanskog kulturnog ljeta
sve je bogatiji i popularniji kako među
Kaštelanima tako i njihovim gostima.*

Dear guests,
welcome to Kaštela, the town of love, home
to Kaštela's crljenak, a place of numerous
towers and castles who toured the entire world on the
movie screens, the town where today after 1500 years
THE Old Olive Tree still stands, a tourist pearl with 17
km long coast and unique cove like nowhere on the
Mediterranean.

Welcome to the town of sports – the town of the best
Croatian volleyball players!

It is my pleasure to tell you in the name of our town
that we shall present our cultural wealth through a
number of cultural and entertaining events throughout
the summer, and longer.

Crystal clear sea, wide beaches next to nearby towers
and castles, are natural summer stage for presenting
the truly rich cultural treasury that is placed right here,
in the very heart of Dalmatia, between the two of
UNESCO's cities.

I wish you unforgettable, carefree, safe and
pleasurable stay here in our beautiful town of Kaštela.

The Mayor of Kaštela
Denis Ivanović

THE KAŠTELA CULTURAL SUMMER

event in Kaštela whose program consists of many
music, theater, dance, exhibition and similar events.
The Town of Kaštela in association with the Kaštela
Tourist Board, many civil societies, cultural societies
and institutions and individuals, organizes cultural
programs on nearly all squares, waterfronts, streets
and castles.*

*For a number of years already, the program of the
Kaštela Cultural Summer has become richer and more
popular among both the inhabitants of Kaštela as well
as their guests.*

LEGENDA O MILJENKU I DOBRILI

Priča o Miljenku i Dobrili smještena je u drugu polovicu 17. stoljeća u K. Lukšić gdje su živjele obitelji Vitturi i Rušinić u svojim romantičnim dvorcima.

Mali Miljenko (Rušinić) i Dobrila (Vitturi) su bili prijatelji i na kraju se zaljubili. Njihovi roditelji koji su se u međuvremenu posvađali nisu dozvolili njihovo druženje niti vjenčanje, a nakon njihovog bijega i niza zapleta koje samo ljubav može dati, roditelji su pristali na vjenčanje u K. Lukšiću.

Kaštelski ljubavnici su prihvatili roditeljsku ponudu. Međutim, Dobrilin otac, knez Radoslav se nikako nije mogao pomiriti sa činjenicom da je Miljenko ipak pobijedio i da će odvesti njegovu Dobrilu, kao svoju suprugu, u njihov novi dom, dvorac plemićke obitelji Rušinić. Obuzet nesavladivom mržnjom i osvetom, večer nakon vjenčanja dvoje mladih u ljetu 1690. godine, knez Radoslav je na mostu ispred svog dvorca u Kaštel Lukšiću ubio svog zeta iz kubure.

Nekoliko mjeseci nakon nemilog događaja, Dobrila je od silne tuge izgubila razum, razboljela se i umrla. Njezina posljednja želja je bila da je pokopaju kraj Miljenka u crkvi Sv. Ivana na Rušincu koja potječe iz 16. st.. U toj se crkvi danas nalazi nadgrobna ploča na kojoj piše: "Pokoju ljubovnikom". U Kaštel Lukšiću se osim njihova groba nalazi i izvorni Dobrilin dvorac Vitturi iz XV. – XVI. st., Miljenkov kaštel Rušinić iz XV. st. te stara crkva iz 1530. god. u kojoj su vjenčani. Prema ovoj legendi napisani su roman, drama i opera.

Ljubavna priča o Miljenku i Dobrili, smještena u K. Lukšić povod je za višednevni bogati program na različitim lokalitetima u K. Lukšiću.

LEGEND OF MILJENKO AND DOBRILA

The story of Miljenko and Dobrila happens in the second part of the 17th century in Kaštel Lukšić where the Vitturi and Rušinić families lived in their romantic castles. Young Miljenko (Rušinić) and Dobrila (Vitturi) were friends and finally they fell in love. Their parents, who had an argument, did not allow their friendship or wedding, and after their elopement and a line of twists that only love can create, parents agreed to the wedding in Kaštel Lukšić.

Lovers from Kaštela accepted their parents' offer. However, Dobrila father, lord Radoslav could not come to terms with the fact that Miljenko won and that he shall take his Dobrila, as his wedded wife, to their new home, the castle of the noble family Rušinić. Possessed by uncontrollable hatred and desire for revenge, the night before the wedding of two young people in summer 1690, with a flintlock pistol on the bridge in front of his castle in Kaštel Lukšić he killed his son-in-law.

A few months after the grievous event, out of tremendous sadness, Dobrila lost her mind, got sick and died. Her last wish was to be buried next to Miljenko in the small church of St. John in Rušinac which originates from the 16th century. Their tombstone can still be seen there, with the inscription: "Lovers, rest in peace". In Kaštel Lukšić, besides their grave, there still stand the authentic castle of Dobrila, the Vitturi Castle from the 15th to 16th century and also Miljenko's the Rušinić Castle from the 15th century and the old church from 1530 where the lovers got married. Novel, drama and opera were inspired by this legend.

Love story of Miljenko and Dobrila placed in Kaštel Lukšić is the reason for many days of rich program in different locations in Kaštel Lukšić.

KAŠTELANSKO KULTURNO LJETO 2021.

Koncertom Klapa Rišpet otvara se KKLJ 2021.

Ovogodišnje Kaštelsko kulturno ljeto otvorit će svojim koncertom jedan od naših najpoznatijih i najuspješnijih klapskih sastava, klapa Rišpet, koju je prije deset godina osnovao poznati splitski skladatelj Pero Kozomara.

Kreativna i originalna klapska ekipa, uz čije se pjesme zaljubljuje, veseli, ali i tuguje, ovim koncertom zasigurno neće razočarati obožavatelje koji jedva čekaju ponovni susret jer je upravo klapa Rišpet bila ta koja je napravila posljednji veliki koncert u Dalmaciji u Spaladium Areni, prije pandemije uzrokovane koronavirusom.

No „rišpetovci“ nisu mirovali, radili su na novim pjesmama, a njihov novi album „Šta mi ljube očeš kazat“ u rekordnom je roku došao do srca slušatelja i struke – što potvrđuje nominacija za Porin u kategoriji najboljeg albuma zabavne glazbe.

Opening of the Kaštela Cultural Summer 2021 with the concert of Klapa Rišpet

This year we open the Kaštela Cultural Summer with the concert of one of our most famous and successful band of singers, klapa Rišpet, which was founded ten years ago by the famous composer from Split, Pero Kozomara.

This creative and original team of singers, with whose songs people are falling in love, rejoicing but also grieving, will surely not disappoint its fans who can't wait to meet again as klapa Rišpet was the one who gave the last big concert in Dalmatia at the Spaladium Arena, before this pandemic caused by coronavirus started.

But the members of the klapa did not rest during lockdown, they worked on new songs and their new album „Šta mi ljube očeš kazat“ reached the hearts of the audience and the professionals in record time – what was confirmed by the Porin nomination in the category of the best album of pop music.

Kod klape Rišpet riječ o odličnom spoju modernog i tradicionalnoga, čime su klapsko pjevanje približili i drugoj generaciji, te nije više samo a cappella pjevanje za 60 plus, nego postaje glazba za sve.

Tako se za prvo desetljeće glazbenog djelovanja Klape Rišpet sigurno može kazati da je ispunjeno uspjesima te brojnim priznanjima i nagradama. Podsjetit ćemo samo na četiri nagrade zaredom Cesarica, u kategoriji Hit godine klapske glazbe, i to za pjesme: »Reći ćeš mi fala« 2017. godine, »Šta mi ljube očeš kazat« 2018. godine »Kada ljubav dvije duše spoji« 2019. te Maka, maka 2020. godine.

Večeri dalmatinske pisme

Prvu večer obilježit će klapa Cambi svečanim koncertom povodom velike obljetnice njihovog rada, a drugu večer ide Kaštelski đir, festivalska večer s obradama već odabranih 20 popularnih skladbi. Klapa Cambi, jedna je od najpoznatijih i najboljih dalmatinskih klapa, iza koje je bogatih 35 godina glazbenog puta.

When we speak of klapa Rišpet, we talk about excellent mix of modern and traditional sounds, thus bringing klapa singing closer to the second generation, and it is not any more only a capella singing for those with 60 and plus, but it became the music for all.

So we can say that the first decade of musical action of klapa Rišpet was filled with success and numerous recognitions and awards. We shall remind you only on four consecutive Cesarica awards in the category hit of the year of klapa music, for the following songs: "Reći ćeš mi fala" in 2017, "Šta mi ljube očeš kazat" in 2018, "Kada ljubav dvije duše spoji" in 2019 and "Maka, maka" in 2020.

Dalmatian Song Evenings

The first evening the audience will listen to the concert of klapa Cambi for the big anniversary of their work and the second evening we shall enjoy in the event of the Kaštela's Way, a festival evening with remakes of previously chosen 20 popular songs. Klapa Cambi is one of the most famous and best Dalmatian's klapa with rich 35 years of their musical activities.

Osvojili su pregršt nagrada, među kojima čak 10 Porina.

Klapa Cambi iz Kaštel Kambelovca osnovana je 1986. godine, a široj publici postaje poznata već 1991. godine svojim prvim nastupom u Omišu na Festivalu dalmatinskih klapa.

Od tada je svakim svojim nastupom klapa Cambi nastojala i uspijevala vrhunskim izvedbama, pjevajući tradicionalne dalmatinske i zabavne pjesme, ostvariti sklad dalmatinske glazbene baštine i suvremenih glazbenih kretanja.

U nastupima klapa Cambi osjeća se iskrena ljubav prema klapskom pjevanju što dodatno doprinosi kvaliteti njihovog izričaja, promicanju izvorne klapske pjesme, izvedene na suvremeni način i proširuje krug slušatelja i gledatelja.

Lutkarska predstava "Složna obitelj"

Djci je predstavljena obitelj kao osnovna i najvažnija cjelina njihovog odrastanja, sazrijevanja i života.

Obitelj kao ishodište ljubavi, brige, dobrote i zajedništva.

Dolazi u jednom trenutku u iskušenja (jer se pojavio čarobnjak Zlik), ali u konačnici obitelj pobjeđuje sve i ostaje složna.

Kroz priču se vješto provlače osnovne higijenske i prehrabne navike. Te ih prezentira djeci kroz pjesme na vrlo nenametljiv i prihvatljiv način.

They won a handful of awards, among which even ten Porin awards.

Klapa Cambi from Kaštel Kambelovac was founded in 1986 and it became known to the wider public in 1991 with their first performance at the Festival of Dalmatian's Klapa in Omiš.

Since then, with its every performance, klapa Cambi tried and succeeded to have top performances by singing both traditional Dalmatian and pop songs; they managed to achieve harmony of Dalmatian musical heritage and contemporary musical trends.

When listening to klapa Cambi sing, one feels true love toward the klapa singing what adds to the quality of their performance and to the promotion of klapa song, performed in a modern way, and it also widens the number of klapa songs' fans.

Puppet Show "Loving Family"

The family in this play is presented to children as the basis and the most important whole throughout their childhood, growing-up and life in general. Family is shown as the base, a source of love, care, goodness and togetherness. At one moment it comes into

temptation (as the wizard Zlik Jali appears) but eventually the family conquers everything and remains united. Hygienic and eating habits are wisely interwoven into the play. They are presented to children through songs in a

very unobtrusive and acceptable way.

Zelena priča

Lutkarski mjuzikl Zelena priča na zanimljiv i popularan način, prihvatljiv najmlađoj publici odgovara na niz pitanja o zaštiti okoliša i odvajanju otpada.

Odgovore su na svojstven način dali smetlar Medo, mudra sova Gica Prljavica, Magarac, Ribica i Vjeverica, junaci ovog ekološkog lutkarskog mjuzikla, koji je ostvaren u suradnji Studija Suncokret s Fondom za zaštitu okoliša Republike Hrvatske.

Sudionici lutkarske priredbe u svojim prirodnim staništima susreću se sa raznim vrstama onečišćenja. Dok neki uživaju praviti nered drugi traže rješenje kako okolišu vratiti stari sjaj.

Za vrijeme predstave djeca će na zabavan i interaktivan način naučiti i o osnovama razvrstavanja otpada. Glavna misao ovog ekološkog mjuzikla je da se o zaštiti okoliša treba brinuti od malih nogu.

Predstava Ženici

Predstava Ženici je melodrama postavljena prema genialnom i bezvremenskom tekstu Ilije Zovka, a govori o sudbini dvojice pojedinaca i njihovih obitelji smještenih u ambijent Dalmatinske zagore.

Riječ je o melodrami sa dosta komičnih i neobičnih obrata dvojice gastarbajtera, koji kroz razgovor otvaraju aktualne teme o čovjeku na našem području, njegovom ponašanju, moralu, željama i dvojabama. Njihove sudbine su iznimno iskrene i tako iskonski ocrtavaju ambijent malog dalmatinskog mjesta. Dva dijametralno suprotna lika našla su se u krajnje apsurdnoj situaciji koja ovom djelu daje iznimno komičan potencijal.

Green Story

"The Green Story", a puppet musical tells its story in an interesting and popular manner, acceptable to the youngest audience and also answers to a number of questions on environment protection and separation of waste.

Answers are given in their own unique way by Bear, the garbage man, a wise owl named Gica Prljavica, Donkey, Little Fish and Squirrel, the heroes of this ecological puppet musical, which was developed in cooperation of Studio Sunflower and the Environment Protection Fund of the Republic of Croatia.

Participants in this puppet show encounter different types of pollution in their natural habitat. While some enjoy making a mess, others search for solutions to restore the environment into its old glory.

During the show, the children shall in an entertaining and interactive way learn about basics of the waste separation. The main idea of this ecological musical is that we should start caring for the environment from an early age.

Grooms

The play Grooms is a melodrama set according to the ingenious and timeless text by Ilija Zovko and it is about destiny of two individuals and their families in the ambiance of Dalmatian Zagora.

It is a melodrama with numerous comical and unusual twists of two foreign workers, who while talking open contemporary topics on man from our region, his behaviour, morality, wishes and doubts.

Their destinies are extremely true and thus precisely outline the ambiance of the small Dalmatian place. Two diametrically different characters found themselves in ultimately absurd situation which gives this play an exceptional comic potential.

Kroz navedenu komiku i apsurd propitkuju se brojne univerzalne teme i motivi koji seciraju društvo na mikro i makro razini nudeći publici slobodu u donošenju vlastitih zaključaka i procjena. U autorskom timu predstave Umjetničke organizacije Ritam igre su glumac splitskog HNK Pere Eranović i dramski umjetnik Ivan Baranović

Through mentioned comical situations and absurdity they question numerous universal topics and motives which dissect society on micro and macro levels offering to the audience freedom in making their own conclusions and estimations. Pere Eranović, an actor of Split's Croatian National Theatre and a dramatic artist Ivan Baranović are part of the author's team of this play developed by the Artistic Organization Rhythm of the Game.

Komedija "Stambeno pitanje"

Komedija za odrasle Stambeno pitanje, nova je predstava Gradskog kazališta Scena „Gorica“. Predstava je rađena po komediji Snježane Babić Višnjić, u režiji Ivana Lea Leme, a igraju: Đorđe Kukuljica, Anita Matić Delić, Mia Krajcar, Mladen Kovačić i Branka Cvitković.

U igri su dva bračna para s neriješenim stambenim pitanjem, koji se krvnički bore oko naslijeđenog stana. Stambeno pitanje izvor je mnogih nesporedazuma i prevrata u životu, pa tako i u kazalištu. Dijalozi su britki, dramska lica slojevit i zanimljiva, a opisana su stanja i raspoloženja koja će mnogi prepoznati iz svojih bračnih ili „dobrosusjedskih“ situacija. Na sceni se, baš kao i u stvarnom životu, znaju najjednostavnije životne situacije pretvoriti u horor priču, opisanu na vrlo duhovit način.

Nemaš pojma, Grizlijane!

Nova predstava za djecu Nemaš pojma, Grizlijane! Kazališne družine Smješko, namijenjena je djeci od 4 do 12 godina. Predstava je mali mjuzikl nastao na predlošku istoimene basne poznate spisateljice Ane Đokić-Pongrašić, inače knjiga je jedan od omiljenih naslova iz školske lektire.

Priča je to o malom razmaženom i nespretnom medvjediću Grizljanu, kojega je do tada hranila njegova mama, a sam ništa nije znao napraviti. Simpatični medvjedić po cijele je dane ljenčario, dok mama nije zaključila da je već dovoljno velik da počne sam sebi pronalaziti hranu. Ali, tu počinju njegove brojne nevolje. Životna priča medvjedića Grizlijana zapravo pokazuje s kojim se sve problemima susreću i mališani kada polaze u školu, kada se osamostaljuju i prihvaćaju svoju odgovornost. Težak je to prijelaz i za dijete i za roditelje, ali se mora napraviti kako bi se ono moglo pripremati za odrasli život.

The Housing Issue

A comedy for grown-ups "The Housing Issue" is the new play by the Urban Theatre Scene "Gorica". The play is based on the comedy by Snježana Babić Višnjić, directed by Ivan Leo Lemo and the actors are: Đorđe Kukuljica, Anita Matić Delić, Mia Krajcar, Mladen Kovačić and Branka Cvitković.

The story is about two married couples with unsolved housing issue, who fiercely fight over an inherited apartment. The housing issue is the source of many misunderstandings and twists both in life and theatre. Dialogues are sharp, dramatic faces are layered and interesting and states and moods described will be recognized by many in their marital or "neighbourly relations". On the stage, just as in real life, the most simple life situations can turn into the horror story in a minute, which can be described in a very witty way.

You don't have a clue, Grizlijan!

New children play "You don't have a clue, Grizlijan!" which was developed by the Theatrical Company Smješko is intended for children 4 to 12 years of age. The play is a musical originated on the template of the fable of the same name by the well-known writer Ana Đokić-Pongrašić, otherwise the book is one of the most favourite titles of school-required reading.

It is a story about small and clumsy teddy bear named Grizlijan, who was fed by his mother and didn't know how to do anything by himself. Cute teddy bear was lazing around all day long until his mum decided that he is big enough to start finding food by himself. But, alas, that's where his troubles start. Life-story of Grizlijan, the teddy bear, actually shows the troubles young children are faced with when they start going to school, when they start becoming independent and accepting their responsibility. It is a hard transition both for a child and parents, but it has to be done in order to prepare the child for its future life.

Muzej

Sjedište Muzeja grada Kaštela nalazi se u jednoj od najbolje očuvanih kaštelanskih utvrda-kaštelu Vitturi. Kaštela su drugi grad po broju stanovnika u Splitsko-dalmatinskoj županiji, sa sedam naselja razmještenih duž obale Kaštelanskog zaljeva. Svako naselje nastalo je tijekom razdoblja turske opasnosti, kada su plemstvo i Crkva iz okolnih gradova Splita i Trogira, podigli svoje kaštele u svrhu zaštite stanovništva od turskih napada.

Osim novovjekih povijesnih jezgri, na kaštelanskom prostoru postoji niz arheoloških lokaliteta iz prapovijesnog, antičkog i srednjovjekovnog razdoblja.

Muzej grada Kaštela osnovan je 1999. god., a nastao je preustrojem Zavičajnog muzeja Kaštela, koji je izrastao iz rada galerije Studin (osnovane 1988. godine). Bogatstvo kulturne baštine kaštelanskog prostora ogleda se i u radu muzeja, koji prikupljajući i prezentirajući građu doprinosi očuvanju kulturne baštine ovog prostora.

Museum

The seat of the Municipal Museum of Kaštela is located in one of the best-preserved fortresses in Kaštela – Vitturi Castle. Kaštela are the second city by population in Split-Dalmatia County, comprised of seven villages spreading along the coast of the Kaštela Bay. Each village originated during the period of the Otoman threat, when the nobility and the Church from the surrounding cities of Split and Trogir built their castles to protect the population against the Otoman attacks. Apart from the Modern era historical cores, there is a whole range of archaeological sites dated to prehistoric times, Classical Antiquity and Middle Ages within the area of Kaštela.

The Municipal Museum of Kaštela was founded in 1999, through restructuring of the Regional Museum of Kaštela, which had originated from the Studin Gallery (founded in 1988). The richness of the cultural heritage of the Kaštela area is reflected in the work of the museum, which contributes to preservation of cultural heritage of this area by gathering and representing the material. There are Archaeological, Cultural-historical, Modern and Contemporary Art, Pedagogical, Documentation, as well as Restoration and Conservation departments operating within the Museum. The permanent exhibition of the museum is located in the Vitturi Castle in Kaštel Lukšić, and in 2012, a permanent exhibition was opened at the Archbishop's castle in Kaštel Sućurac. The museum takes care of two archaeological sites: the remains of an ancient settlement of Siculi at Resnik and Mujina cave in Labinska draga.

Unutar muzeja djeluje arheološki, kulturno-povijesni, odjel moderne i suvremene umjetnosti, pedagoški, dokumentacijski i restauratorski odjel. Stalni postav muzeja smješten je u dvorcu (kaštelu) Vitturi u Kaštel Lukšiću, a od 2012. god. otvoren je i postav u nadbiskupskom kaštelu u Kaštel Sućurcu. Muzej brine i o dva arheološka nalazišta: ostacima antičkog naselja Sikuli u Resniku i o Mujinoj pećini u Labinskoj dragi.

Kaštel Vitturi u Kaštel Lukšiću

Sam kaštel sa okolnom povijesnom jezgrom dobro je očuvan, a obnovom u razdoblju od 1993. do 2001. god., vraćen mu je izgled s početka 18. st.

Tada je bio u svojoj najrepresntativnijoj fazi i danas predstavlja kulturni centar Grada Kaštela. Tijekom istražnih radova ponovno je otkriven obrambeni jarak i kameni most ispred sjevernog ulaza. Kaštel je izgradila plemićka obitelj Vitturi, krajem 15. i tijekom prve polovice 16. st. Uslijed čestih tuskih napada bilo je nužno zaštititi domaće stanovništvo, koje je do izgradnje kaštela živjelo u srednjovjekovnom selu Ostrog na padinama Kozjaka.

Uz kaštel je formirano manje utvrđeno naselje sa do danas sačuvanom pučkom kamenom arhitekturom i organizacijom prostora.

Stalni muzejski postav

Stalni postav muzeja nalazi se na drugom katu kaštela Vitturi, a otvoren je 2008. godine. Postav se sastoji iz dva dijela; kulturno-povijesnog (južno krilo) i arheološkog (istočno krilo) sa 679 izložaka. Između ova dva dijela stalnog postava

Vitturi Castle in Kaštel Lukšić

The castle itself with its surrounding historical core is well preserved, and in the period between the year of 1993 and 2001, its appearance from the beginning of the 18th century has been restored. The castle was in its most representative stage in that period.

During the research works, defensive moat and a stone bridge in front of the northern entrance were rediscovered.

The Castle was built by the noble family Vitturi, at the end of the 15th and the beginning of the 16th century. Due to frequent Otoman attacks, it was necessary to protect the local population, which had been living in the medieval village of Ostrog at the slopes of the Kozjak Mountain before the construction of the Castle. Along with the castle, a small, fortified settlement was also formed, and its folk stone architecture and space organization has been preserved till this day.

nalazi se galerija u kojoj je lapidarij.

U kulturno-povijesnom dijelu prezentiran je razvoj pojedinih kaštela i urbanizam kaštelanskih naselja, kao i prikaz obrane od Turaka sa zbirkom oružja. U odvojenom dijelu prikazan je život plemenitaških kaštelanskih obitelji i kaštelanska narodna nošnja. U arheološkom dijelu stalnog postava prezentirani su vrijedni arheološki nalazi iz razdoblja. Posebno su zanimljivi litički Mujinoj pećini (45000-39000 god. pr. Kr.), brojni nalazi iz antičkog naselja Sikuli i grobni prilozi iz starohrvatskih nekropola.

Nadbiskupski kaštel u Kaštel Sućurcu

Povijesna jezgra Kaštel Sućurca formira se krajem 15. st. oko kule koju je 1392. podigao splitski nadbiskup Andrija Benzi na predjelu zvanom Lučac. Uz kulu, čiji su temelji i danas vidljivi, izgradio je splitski nadbiskup Bartolomeo Averoldo 1489. god. obrambeni sklop Kaštilac u kojem je nadbiskupska palača bila centralni dio. Čitav Kaštilac

Permanent museum display

The permanent museum display is located at the second floor of the Castle Vitturi, and it was opened in 2008. The display is comprised of two parts: cultural-historical (southern wing) and archaeological (eastern wing), with a total amount of 679 exhibits. Between those two parts, there is a gallery with a lapidarium.

Development of the individual castles and urbanism of the Kaštela villages, as well as the representation of defence against the Ottomans through the weapon collection, are shown in the cultural-historical part. The life of the noble families of Kaštela, as well as folk costumes, is represented in a separate part.

Within the archaeological part of the permanent exhibition, there are valuable archaeological finds dated to Prehistory, Classical Antiquity and the Middle Ages. Lithic artefacts of the Mousterian culture discovered in Mujina cave (45000-39000 BC) are of a special interest, as well as the numerous finds from the ancient settlement of Siculi and the sepulchral contributions from the Early Croatian necropolae.

The Archiepiscopal Palace in Kaštel Sućurac

The historical core of Kaštel Sućurac was formed at the end of the 15th century around the tower constructed by Andrija Benzi, the Archbishop of Split, in 1392 in the area called Lučac. In 1489, next to the tower whose foundations are still visible

bio je dobro utvrđen sa zidom od kojeg je krunište dijelom očuvano. Na drugom katu nadbiskupske palače nalaze se muzejski prostori, s bogatom kulturno-povijesnom i arheološkom zbirkom.

Od 2012. godine ovdje djeluje arheološki odjel muzeja.

U susret stalnom postavu

Na prvom katu nadbiskupske palače postavljena je izložba „U susret stalnom postavu“. Sadrži dva dijela: kulturno-povijesni i arheološki sa 138 izložaka. Kroz izloženi materijal prikazano je bogatstvo pokretne kulturne baštine iz Kaštel Sućurca. Veći dio materijala potječe iz zbirke koju je prikupila udruga Podvorje, koja se do 2012. god. brinula o njoj.

Dio izloženog arheološkog materijala pronađen je istraživanjima djelatnika arheološkog odjela Muzeja grada Kaštela (Krtine, Brižine i Trstenik) i Muzeja hrvatskih arheoloških spomenika (Putalj). Od eksponata u postavu izdvajaju se nalazi s brončanodobne gradine na Putalju i predromanički luk oltarne pregrade (tzv. sućurački luk).

today, the Archbishop of Split Bartolomeo Averoldo constructed a defensive complex Kaštilac in which the Archiepiscopal Palace was the central part. Entie Kaštilac was well fortified with a wall, and its battlements have been partially preserved. On the second floor of the Archiepiscopal Palace, there are museum premises with rich cultural-historical and archaeological collections. Since 2012, the archaeological department of the Museum has been located here.

Towards the permanent display

The exhibition entitled "Towards the permanent display" has been organized on the second floor of the Archiepiscopal Palace. It is comprised of two parts: cultural-historical and archaeological, with 128 exhibits. The exhibited material depicts the wealth of the movable cultural heritage of Kaštel Sućurac. The largest part of the material originates from the collection of the association Podvorje, which was in charge of its maintenance up until 2012. Part of the exhibited archaeological material has been discovered during the excavations of the employees of the archaeological department of the Municipal Museum of Kaštela (Krtine, Brižine and Trstenik) and of the Museum of Croatian Archaeological Monuments (Putalj). Among the exhibits, the finds from the Bronze Age hillfort at Putalj and early-Romanesque arch of the altar partition (a so called Arch from Sućurac) are especially noticeable.

Riznica župne crkve u Kaštel Štafilicu

U Riznici su izloženi pokretni dijelovi crkvene baštine Župne crkve Bezgrješnog začetca Blažene Djevice Marije.

Treasury of the parish church in Kaštel Štafilic

Movable parts of the ecclesiastical heritage of the Parish Church of the Immaculate Conception of the Blessed Virgin Mary are exhibited in the Treasury. Votive gifts (so called Our Lady's gold), filigree handmade jewellery, as well as modest but valuable liturgical objects made of silver, books and paintings are exhibited next to the painting of Our Lady. In most part, these are the imported works of the Venetian provenance and of Austrian jewellers, as well as of local artisans from Split, Trogir and Kaštela. These items were acquired and donated by confraternities and individuals
Open by appointment.

Uz Gospinu sliku izloženi su zavjetni darovi (tzv. Gospino zlato), filigranski ručno rađeni nakit kao i skromni, ali vrijedni liturgijski predmeti od srebra, knjige i slike. To su često uvezeni radovi venecijanske provenijencije i austrijskih zlatara te domaćih majstora iz Splita, Trogira i Kaštela. Navedene predmete nabavljale su bratovštine i darivali pojedinci.

Otvoreno po najavi.

Mujina cave

Mujina cave holds traces of presence of the Neanderthal men in this area. It is located within the karst environment around Labinska draga, which historically served as an important communication route with the hinterlands. For that reason, several archeological sites from different periods can be found here. In the approximate vicinity of the cave, there are also the remains of the Roman road which connected Siculi with the hinterlands.

The cave is of small dimensions with a big entrance facing the south-east. Small plateau in front of the entrance enables good control of the surrounding area, which was important to prehistoric men because it helped them notice the animal herds that used to inhabit this area. Systematic archaeological research within the cave has uncovered rich layers of Mousterian culture dated to the period from 45000 to

Mujina pećina

Tragovi prisutnosti neanderalca na ovom prostoru sačuvani su u Mujinoj pećini. Smještena je u sačuvanom prirodnom krškom okolišu Labinske drage, koja je kroz prošlost bila važna komunikacija prema zaleđu. Sa manjeg platoa ispred pećine moguća je dobra kontrola okolnog prostora, što je pračovjeku bilo važno zbog mogućnosti ranog zapažanja krda životinja koje su tada nastanjivale ovaj

prostor. Sustavna arheološka istraživanja u pećini otkrila su bogate kulturne slojeve musterijske kulture iz razdoblja od 45000 do 39000 god. prije Krista. U slojevima koji su oko 2 metra duboki pronađeni su raznoliki litički artefakti.

Svjedoče o djelatnostima koje je u pećini obavljao neandertalac, a brojni nalazi životinjskih kostiju o pehrani. U vrijeme korištenja pećine klima je bila znatno hladnija, a razina mora oko 90 metara niža.

Antički Sikuli

Ostaci antičkog naselja Sikuli nalaze se u Resniku pored Kaštel Štafilića, uz ušće istoimenog potoka. Ono se spominje u brojnim povijesnim izvorima, a rimski car Klaudije ovdje je naselio vojne veterane polovicom 1. st. pr. Kr. Dugogodišnjim arheološkim istraživanjima utvrđeno je da se naselje prostire na površini od oko 36 000 m² i da je osnovano u 2. st. pr. Kr. Osim ostataka pravilno organiziranih stambenih blokova i ulica, sačuvani je manji dio bedema i danas potopljena podmorska pristaništa. Osim antičkih pritaništa, u podmorju ispred ušća potoka nalaze se ostaci paleolitičkog nalazišta i neolitičkog naselja.

39000 BC. Within the 2 metres deep layers, various lithic artefacts and animal bones have been discovered. They testify about the activities performed by the neanderthals within the cave, and numerous animal bones tell us about their diet. While the cave was being used, the climate was significantly colder and sea level about 90 metres lower.

Classical Antiquity settlement of Siculi

The remains of the Classical Antiquity settlement of Siculi are located in Resnik, next to Kaštel Štafilić, at the mouth of the eponymous creek. It has been mentioned in numerous historical sources, and the Roman Emperor Claudius settled his military veterans here in the mid-1st century BC. During many years of archaeological research, it has been established that this settlement spread over the area of 36.000 m² and that it was founded in the 2nd century BC. At this time, the surroundings of the Kaštela Bay were the stage for very dynamic events related to Greeks from Issa, Romans and Delmatae. Apart from the remains of the evenly organized residential blocks and streets, a smaller part of the fortification walls and underwater docks that are today submerged into the sea have also been preserved. It is assumed that the layout was rectangular, with a surface of 3.6 ha. Residential blocks were extremely long, around 13 metres wide. The settlement was destroyed during the second half of the 1st century BC, as evidenced by the remains of the collapsed roof structures and soot found in most of the researched houses. Apart from the ancient docks, the remains of a Palaeolithic site and Neolithic settlement are also located underwater, in front of the mouth of the creek.

Visit Kaštela

Biranj

Biranj je slojevito arheološko nalazište na istaknutom kozjačkom vrhuncu (631 m) iznad Kaštela. Ovdje se nalazi prapovijesno gradinsko utvrđenje, kasnoantički kastrum, svetište vrhunskog slavenskog božanstva Peruna i romanička crkva Sv. Ivana. Vanjski bedem prapovijesne gradine dugačak je gotovo 800 metara i lučno zatvara površinu od gotovo 73 000 m², što lokalitet svrstava u red površinom najvećih gradinskih utvrđenja na istočnoj jadranskoj obali i zaleđu. Bedemi su suhozidni, a osipina je na pojedinim mjestima i do 12 metara široka. Arheološka istraživanja otkrila su kulturne slojeve iz neolitika i bronzanog doba, sa razvijenom litičkom industrijom.

Biranj

Biranj is a stratified archeological site located at a prominent peak of Mount Kozjak (631 m) above Kaštela. A prehistoric hillfort, late Classical Antiquity Castrum, the sanctuary of the supreme Slavic god Perun and the Romanesque church of Sv. John are located here. The outer bastion of this pehistoric hillfort is almost 800 meters long and encloses the area of nearly 73.000 m², which makes it one of the largest hillforts on the eastern Adriatic coast and in the hinterland. The bastion is made of dry wall and is at some parts up to 12 metres wide. Archaeological research has revealed cultular layers dated to Neolithic and Bronze Age, with a well developed lithic industry.

Istraži Kaštela

Kaštela će vas privući na prvi pogled. Uživat ćete u zvukovima kamenih ulica, mamit će vas mirisi i okusi restorana i konoba, opustit ćete se na vrućem žalu njegovih plaža, otkrit ćete tajne i legende bogate povijesti i oduševit će vas jedinstveni pogled s brda Kozjak na Kaštelanski zaljev, susjedne UNESCO gradove Split i Trogir i magični srednjodalmatinski arhipelag.

Prirodno naslijeđe (Bogatstvo prirode)

Uzgoj vinove loze i maslina duboko je utkan u tradiciju kaštelanskog težaka, a mnogi će reći da trešnje nigdje na svijetu nisu tako slatke i sočne kao u Kaštelima. Na surovom dalmatinskom kršu trudom generacija niknula su plodna polja, a kaštelanski ribari i danas ranom zorom odvezuju svoje brodice u potrazi za plavom i bijelom ribom. Tu, u prirodnom okruženju Kozjaka i Kaštelanskog zaljeva, uživat ćete u plodovima dalmatinske prirode, diveći se njenom bogatom naslijeđu.

Explore Kaštela

The city of Kaštela will attract you at a very first sight. You will enjoy the sounds of its old stone streets, tastes and smells of its restaurants and taverns. You can relax on hot sand of its beaches or discover the secrets and legends of its rich history.

You will be enchanted by a unique view which you can experience if you climb on the mountain Kozjak. This magnificent view spreads from Split on the eastern side across the Kaštela Bay to Trogir on its western side, to the magic archipelago of Central Dalmatian islands. Both cities, Split and Trogir are on the UNESCO World Heritage List.

Natural heritage (The wealth of nature)

The cultivation and growing of vine and olive is deeply woven in the tradition of Kaštela farmers. Many would say that cherries are nowhere so sweet and juicy as they are in Kaštela. Generations of Kaštela hardworking people have managed with their hard and dedicated work to turn rough Dalmatian karst into fertile fields.

Kaštela fishermen even nowadays set off with their boats at dawn and seek for a catch of oily and white fish. Here, in so natural surrounding of Kozjak and the Kaštela Bay, you will enjoy the fruits of abundant Dalmatian nature, admiring its rich heritage.

Kulturno naslijeđe (Tragovima Igre prijestolja)

Kameni renesansni kašteli gotovo uronjeni u more impresionirat će vas svojom ljepotom. Razasuti po obali uzduž grada nekada su bili središta oko kojih je nastalo sedam životopisnih mediteranskih mjesta. Dok otkrivete koji vam je od njih najromantičniji, osjećat ćete se kao na kulisi za Igru prijestolja, a to i nije posve netočno uzme li se u obzir činjenica da se u Kaštilcu u Kaštel Gomilici, snimala četvrta sezona ove planetarno popularne serije.

Cultural heritage (On the footsteps of the Game of Thrones)

Renaissance stone castles that are almost immersed in the sea will enchant you by their beauty. Scattered along the coast of the City of Kaštela, these castles used to be the nucleuses around which seven picturesque and vivid Mediterranean villages once were formed. While you are discovering which one of them is the most romantic, you will feel as if you are on the set of the Game of Thrones. And this is not entirely untrue since the fourth season of this globally popular TV series was filmed on the very sight of the castle Kaštilac in Kaštel Gomilica.

Povijesni perivoj - Park Vitturi, K.Luk šić

Spomenikom prirode i kulture je proglašeno 1968.godine. U obrazloženju Regionalnog zavoda za zaštitu spomenika kulture stoji: "Park Vitturi po svojoj širini i pristupu s mora predstavlja jedinstveni spomenik naše stare hortikulture. Slični su parkovi u Dalmaciji vrlo rijetko sačuvani, pa se ovaj pored Gučetićeve u Trstenu, Garanjinova u Trogiru i Borellijeva u Sv. Filipu i Jakovu, može ubrojiti u te rijetke spomenike naše vrtne arhitekture".

Park je otvoren za posjetitelje.

Školski botanički vrt O.Š. Ostrog

Nedugo nakon preseljenja O.Š. u Kaštel Lukšiću u novu zgradu 1976. godine, učenici i nastavnici započeli su s uređenjem potpuno zapuštenog prostornog okoliša. Oko školske zgrade, na površini od 4 hektara raste više od 1400 biljnih sorti koje potječu sa svih strana svijeta i pretežno su iz mediteranskog suptropskog podneblja.

Najveći dio zauzima perivoj – arboretum, građen u pejzažnom stilu engleskog perivoja.

Južni vrt je zbog svoje veličine i povoljne mikro-klime najbogatiji dio školskog botaničkog vrta. Tu se nalaze skupine autohtonog i egzotičnog dječica, grmlja, trajnica i cvjetnica, npr. stabla kamforovca, eukaliptusa, avokada, akacija, sekvoja, libananskog i himalajskog cedra, jasmína, bugenvile, itd.

Pažnju posjetitelja pobuđuje i skupina aromatičnog i ljekovitog bilja, kamenjara sa sukulntama, te polje s biljkama vlažnih staništa.

U sjevernom vrtu se nalazi "mali park" izgrađen u francuskom stilu, strogo simetričnih linija sa niskom živicom od šimšira i bogatom kolekcijom oleandara. Na tom je prostoru izgrađena kamena pozornica za kulturno umjetnička događanja. Sastavni dio vrta čini maslinik koji sa svojih 170 stabala i 45 sorti domaćih i stranih maslina predstavlja najveći kolekcionarski nasad hrvatskog priobalja.

Posjeti vrtu mogući su po dogovoru. Kontakt broj : 091 9085856

Historic VitturiPark, K.Lukšić

The park was declared a monument of nature and culture in 1968. In the explanation of the Regional Institute for Protection of Cultural Monuments was written: "The Vitturi Park with its space and its access from the sea presents a unique monument of our old horticulture. Such parks are rarely preserved in Dalmatia. Due to this fact this park along with Gučetić's at Trstenu, Garanjin's at Trogiru and Borelli's at St. Filip and Jakov is a rare monument of our garden architecture". The park is open to visitors.

School Botanical Garden of the Ostrog Primary School

Soon after relocation of the primary school in Kaštel Lukšić to the new building in 1976, cultivation of completely neglected area around the school started. From the very beginning whole work was done by teachers and students.

On the 4 hectares of land more than 1400 different plants is growing, originating from all over the world. However, most of the plants originate from Mediterranean subtropical climate. The larger part of the park is arboretum built in the landscape style of an English park.

The southern garden the richest part of the school botanical garden due to its size and micro-climate. There are groups of autochthonous and exotic trees, bushes and flowers such as camphor tree, eucalyptus, avocado, acacia, sequoia, cedar of Lebanon, cedar of the Himalayas, jasmine, bougainvillea. Very interesting is the group of aromatic and medicinal plants, plants of rocky terrains and a field with plants of humid habitats.

There is the "little park" built in the French style at the northern garden. It is built in strictly symmetrical lines with low box-wood hedges and a rich collection of oleanders. There is a stone stage for cultural and artistic events at this place. Olive grove with its 170 trees and 45 domestic and foreign species of olives is an integral part of the garden. It is the largest collection grove on the Croatian Littoral.

Visit the garden is possible by appointment. Contact: 091 9085856.

Biblijski vrt Stomorija - svetite Gospe od Stomorije

Na južnim padinama Kozjaka je još daleke 1189. godine podignuta crkva sv. Marije od Špiljana, danas zvane Gospe Stomorija.

Na tom mjestu na kojem se spajaju duhovnost i priroda utemeljen je Biblijski vrt. Tu već stoljećima rastu platane, masline, smokve, vinova loza i biljke koje se spominju u Bibliji. Predanošću zaljubljenika u prirodu zasađene su još mnoge druge vrste kao npr. Judino drvo, lovor, akcija, začinsko i mirisno bilje i dr.

Na vidikovcu sa kojeg se pruža prekrasan pogled na Kaštelansko polje i zaljev, posađen je mali vinograd kao spomenik težaku i lozi. U njemu se, uz ostale autohtone vrste vinove loze, nalazi i Kaštelanski crljenak, u svijetu, posebno u Kaliforniji (SAD) poznat kao Zinfandel, koji potječe iz Kaštela.

Lokalitet je otvoren za posjetitelje.

U Kaštel Štafiliću raste maslina (olea europea) koju Kaštelani zovu Mastrinka.

Stara je preko 1500 godina i pretpostavlja se da je donesena iz južne Italije ili Grčke. Kako su na tom prostoru nekada bili posjedi rimskih veterana, pretpostavlja se da je ona ostatak sa nekog poljoprivrednog dobra onog vremena.

Lokalitet je otvoren za posjetitelje.

Biblical Garden Stomorija - Gospa od Stomorije Shrine

In the year 1189 in Kaštel Novi on the southern slopes of Kozjak a little church of Marija od Špiljana, known today as Gospe Stomorija was built.

At this place where coexistence of nature and spirituality could be felt, the Biblical Garden was founded. Planes, olives, figs and vine grew there for centuries. These are the plants mentioned in the Bible. Due to the effort of the nature lovers many other plants like Jude's tree, laurel, acacia, spices, aromatic herbs and many other plants. There is a lookout with a beautiful view at the Field of Kaštela and the Bay of Kaštela. A small vineyard as a monument of the peasants and vine of Kaštela was planted at the lookout. Among other indigenous species of vine there is the Kaštelanski Crljenak, known worldwide and especially in California (USA) as Zinfandel. The vine from United States originates from Kaštela.

The location is open to visitors.

An olive (Olea Europea), more than 1500 years old grows in Kaštel Štafilić, which people of Kaštela call Mastrinka.

It is considered that it was brought from Southern Italy or Greece. Due to the fact that estates of the Roman were in this area, it was presumed to be a remnant of an agricultural estate from those times.

The location is open to visitors.
